**FEEDING FOR HEALTH.**  
Directions by a Food Expert.  
A complete change in food makes a complete change in body. Therefore if you are ailing in any way, the surest road back to health is to change your diet. Try the following breakfast for ten days and mark the result:  
Two soft boiled eggs. (If you have a weak stomach, boil the eggs as follows: Put two eggs into a pint tin cup of boiling water, cover, and set off the stove. Take out in nine minutes; the whites will be the consistency of cream and partially digested. Don't change the portions in any particular.) Some fruit, cooked or raw, cooked preferred, a slice of toast, a little butter, four heaping teaspoons of Grape-Nuts, with some cream, a cup of properly boiled Postum Food Coffee.  
The Grape-Nuts breakfast food is fully and scientifically cooked at the factory, and both that and the Postum Coffee have the diastase (that which digests the starch part) developed in the manufacture. Both the food and the coffee, therefore, are predigested and assist, in a natural way, to digest the balance of the food. Lunch at noon the same.  
For dinner in the evening use meat and one or two vegetables. Leave out the fancy desserts. Never over-eat. Better a little less than too much.  
If you can use health as a means to gain success in business or in a profession, it is well worth the time and attention required to arrange your diet to accomplish the result.

**THE DENTISTS**  
Second Day of Meeting of National Dental Association.  
Several Valuable Papers Read by Prominent Dentists—Amendments to Be Acted on—Election of Officers To-day—Many Cities Want the Next Meeting.  
Yesterday was the second day of the third annual meeting of the National Dental Association at the Chamberlin Hotel, Old Point Comfort.  
The morning session opened at 9 o'clock. At 12:30 o'clock the several sections were organized and began their sessions. At 7:30 p. m. the evening session opened.  
The business details of the association are transacted by the Executive Council, which holds two sessions daily. The council yesterday afternoon discussed at length several proposed changes in the constitution that will be acted on to-day.  
These amendments, which were offered at the meeting last year and laid over under the rules, are as follows:  
To amend Article III, Section 3, which reads as follows: "All delegates members shall be practitioners of dentistry. They shall be received only from permanently organized State and territorial dental societies, and shall be members who have done some meritorious work in their profession; but no person shall be received as a delegate who is in arrears for dues to this association," to read "They shall be received only from permanently organized dental societies."  
That Article IV, Section 1, which reads, "Each State society and the societies bearing the names of the territories, enumerated in Section 3, Article XIII, may send one for every ten of its active members as delegates to this association for one year," be changed so as to read: "Any permanently organized dental society may send one for every six of its active members."  
In Article VI, Section 2, to strike out what follows, viz.:  
"The president, secretary and five members to be elected annually by the association shall constitute an Executive Council, and shall be governed by the same rules of order as the association."

**Knights of Columbus.**  
Last night's Evening Telegram, of Newport News, says:  
"Grand Knight Bowen, Chaplain Donahoe and Guard J. J. Ward, of the local council of the Knights of Columbus, last evening went over to Norfolk to witness an exemplification of the code of the brethren across the ceremonies of the order."  
The mystic rites were conducted by the officers of the Norfolk and Portsmouth councils and extended far into the night. The pilgrims from the Shipbuilding City were unable to return home until this morning, there being no available means of transportation in operation at the late hour of adjournment. They were hospitably received by the brethren across the Roads, many of whom will probably visit this city on the occasion of the installation of the officers of the Newport News Council next month."

**Some Interesting Price News From The Trousers Department.**  
97c. \$1.23.  
\$1.47. \$1.98.  
Four Big Pants Specials go on sale to-day at the foregoing prices—these are Extra Pants, together with those taken from the Suit Stock by reason of combination matching, and the result of this consigns them to the stock of Extra Trousers—they consist of all sizes—regulars—slims—short shorts and extra large—the Pants have been carefully assorted, graded—and averaged into these four price ranges to make them move lively, and there will be no question about their selling, and selling fast, when the quality of cloth is considered and the type of workmanship applied in the process of manufacture—they again, the cut and shape is another important feature—if they were cut with a circular saw and stuck together by means of a glue pot, then the low price that is on them would be no particular inducement—but they are not—these are not—the low price named on the goods, but create an erroneous impression—there isn't a single pair of Pants in the entire lot but what is strong and durable and represents more value and considerable more than the low price placed on them—there's going to be quick work on these four lots, and to those that are in the habit of buying the Pants at the good there's been left a special on sale to-day call for an immediate response, as the lot is limited and will not hold good for an indefinite period of time.  
Here goes another batch of Extra Trousers, consisting entirely of high grade Cassimeres—Cheviots—Flannels—Serges and Diagonals—here goes a range of fabrics that are not only stylish—handsome—and perfect fitting—but, all in all, equal in every point of view to measure-made Pants at double, and in some cases, triple the bargain price named on them—After matching up the Suit Stocks by reason of the enormous selling transacted throughout the season there has been left a big surplus of Extra Pants—they're going to be sold—and that at once—no ifs or ands—the prices are named and the quantities show their marked superiority in each and every instance—the fact of the matter holds itself down to this—when the Pants are taken from the Suit departments the prices put on them would scarcely cover the cost of the fabrics and trimmings in them, to say nothing of their being made up in the best possible manner and guaranteed to fit perfectly. There will be no extra charge for alterations when necessary, and the self same interest to insure satisfaction in every respect prevails as much so as if the full regular price were paid for the goods at the outset of the season—this is by far the most advantageous opportunity that is likely to occur in many a long day—hence it is important to be on hand as early as convenient to secure the best choice of the most desirable patterns and sizes.
